GUMMIES
CREATINE MONOHYDRATE

GORILLA MIND CREATINE GUMMIES TESTING RESULTS - [9 MONTH STABILITY TEST]

Product Name: Creatine Gummies Expiry: Nov 2027 Lot Code: 2511144 Serving Size: 4 Gummies

Ingredients	Method	Specification	Results	Unit of Measure
Creatine Monohydrate	HPLC	5	5.72	g
Creatinine	HPLC		0.29	g

Third Party Tested by an ISO 17025 Accredited Lab

Passing Result

ABBREVIATIONS KEY
g: gram
mg: milligram
mcg: microgram
mg KOH/g: milligrams of KOH per gram of sample
CFU/g: Colony forming unit per gram of sample

Stability test results for our Creatine Gummies were generated using a randomly selected sealed unit from our initial production run and submitted to Eurofins, a highly reputable ISO-certified third-party laboratory, for baseline testing and at regular intervals throughout the product's stability assessment. As part of our commitment to rigorous quality assurance, this product undergoes periodic retesting to confirm that any degradation over time does not cause potency to fall below acceptable tolerance levels.

Analytical testing carries an inherent degree of variability between runs, meaning results may differ slightly from test to test while still reflecting the same underlying product quality and stability.

*Stability testing is measured from the initial production date of the product.
